Award-winning Oracle project management software combined with reliable PROMATIS Best Practice solutions, project management processes, process models, templates, and services.

From the pioneer of the process-oriented introduction of Oracle enterprise software solutions: the Kickstart for your people-centric project management!

**Why the People-Centric
Project Management
Cloud?**

Knowing the skills and availability of talents, conduct multi-project resource planning, and get detailed insights into your projects — anytime, anywhere on any device.

Extend the functionality you need for overall project portfolio management and human capital management.

**Kickstart for
process innovation!**

With the Kickstart offerings for the Oracle Applications Cloud, PROMATIS enables a smart entry into the use of application software services: fast, economical, low-risk. For a fixed price!

A pre-configured Oracle SaaS product suite with best practice business process models and proven PROMATIS implementation and training services.

Kickstart People-Centric Project Management Cloud

The PROMATIS Kickstart provides a balanced solution to manage large project portfolios. Coordinating capabilities and experience of resources with project execution requirements contributes to the motivation of the team and is the key to successful projects.

PROMATIS Best Practice Solution ERP

The PROMATIS Best Practice products are functional extensions for and adaptations of Oracle applications. The result is end-to-end, cross-company business processes that can be implemented economically and quickly in the company.

Oracle Applications Cloud ERP

The ERP software is the heart of all business processes in the company. Oracle's modern, networked cloud applications provide tools and capabilities to streamline business processes such as procurement, project management, and finance. These innovative solutions help increase productivity, reduce costs and increase controls.
